A FEW WORDS

This month we launched the New Zealand Network for Women in Security (NZNWS) in Wellington and Auckland. Sai Honig, the co-founder of the NZNWS who is based in Wellington had a breakfast meetup to discuss future plans in developing the network in Wellington. In Auckland, co-founder Tash Bettridge hosted Auckland's first event. A big thank you to the lovely team at the GridAKL Tech Cafe who sponsored the venue to be used for future meetups.
